**\*\*Not all countries are covered under these global plans. To verify the country you are traveling to is covered, please ask a Huskertech employee. Your domestic voice minutes do not apply while you are traveling internationally. When you make/receive calls you will be charged on a per minute basis unless your global feature includes calls. Per minute rates vary per country; please ask an associate to verify the per minute rate of your country of travel. Your domestic messaging allowances do not apply when you travel internationally. When you send or receive text/picture/video messages you will be charged for each one sent and received unless your global feature covers texts. For all the plans some restrictions apply. The billing period begins on the 29<sup>th</sup> of every month or the day you sign up for service, and ends on the 28<sup>th</sup> of the month. All usage restarts on the 23<sup>rd</sup> of the month with Verizon's cycle. International calls (including Canada and Mexico) will be billed at the additional rate. **Any hotspot feature currently active on your line is not compatible with any of the global features.** No charge for calls you do not answer; you will be charged each time you call out regardless if there is an answer on the other end. You will be charged for any messages received during global travel. An approved Verizon phone is required for service. The maximum number of plan changes that can be done per cycle (23<sup>rd</sup> - 22<sup>nd</sup>) is five. If you exceed this limit we may not be able to add or remove a requested plan. **This offer is available only to UNL Employees and Registered Students and are subject to change with notice.****
